TO THE LOVERS OF THE STEREOSCOPE.

We have pleasure in presenting herewith a newly revised Catalogue of our Stereoscopic Views. It will be found that many novelties and a great variety of new Views have lately been added; also many old Views replaced by those from better negatives of the same localities, since the issue of our last catalogue.

The Stereoscope, once introduced into a household, rarely loses its interest. There is nothing more entertaining or more instructive. It brings to the very threshold of our homes vivid scenes in nature, at little cost of money or time, such as one cannot obtain except by actual travel; and while it does this it also educates and stores the mind with useful information of the world.

We have striven to excel in our branch of the great work of the Stereoscope, and respectfully

ask a careful examination of the subjects embodied in this new catalogue.

While the White Mountains *have always been our specialty, yet it will be seen that our assortment is sufficient of other localities to make up a most interesting and valuable series of Views. We would call especial attention to our Virginia, California and Mexican lists—the latter now for the first time offered to the public, and all comprising a vast amount of scenery never before photographed.*

Stereoscopes and Stereoscopic Views sold wholesale and retail. All inquiries by mail or otherwise promptly responded to.

Very respectfully yours,

KILBURN BROTHERS,

Littleton, N. H.

CATALOGUE.

FRANCONIA NOTCH AND VICINITY.

1 Mt. La Fayette.
5 Walker's Falls.
6 " "
8 Mt. La Fayette, from Franconia.
